New Carts Coming In 2025!

- City Council awarded a new solid waste and recycling agreement to CR&R on June 25, 2024, after a competitive bid process.
- Solid Waste and Recycling services under this new agreement will begin on July 1, 2025. The new agreement with CR&R requires new equipment such as collection vehicles and collection containers.
- All residents will be provided with new containers for trash, recyclables, and organics waste collection as part of the new agreement.
- Beginning February 2025, your current trash, recycling, and organic waste containers will be exchanged with new containers. The new container exchange will be completed in April 2025.
- Your containers will be exchanged for new containers on your service day during the time period as noted above.
- For a specific time frame on when your neighborhood will receive new containers, please visit the City of Laguna Hills website at www.lagunahillscs.ca.gov and select the Trash & Recycling Services page under the Services menu.
- Per California Senate Bill 1383, and the City of Laguna Hills Municipal Code, all residents and businesses are required to participate in the City's three container (trash, recyclables, organics) waste collection system.
